Mayor Spellman read the title.

Fire Chief Woolley introduced this item and explained the need for this light rescue truck in order to improve response time and to be able to access smaller locations, such as parking garage structures and limited

He said that 76% of the Fire Department calls are EMS related and this vehicle will be the primary response unit, and for the remaining Fire calls that come through, this vehicle will complement the other suppression response engines used. B. Resolution 46-2019, A Resolution Approving Amendment No. 1 to the Construction Manager/General Contractor Contract Executed on February 27, 2019, between the City of Black Hawk and Roche Constructors, Inc., Establishing the Phase 1 Guaranteed Maximum Price (GMP) of $883,152.00 for Construction of Selected Portions of the Gregory Street Phase 2 Project

Mayor Spellman read the title.

Senior Engineer Reed came before Council to request this first amendment to the contract for the Gregory Street Phase 2 project, which was approved in February. He said two critical design pieces were identified that must happen before the historic structures can be renovated. The McAfee, Woodbury, and Norton structures located at 305/311, 321, and 351 Gregory Street must be moved off of their foundations, and the drainage flume needs to be reconstructed; this amendment would only procure the materials needed for the reconstruction of the flume, not the construction of it. He said design work is not complete, but this amendment would allow a portion of the work to begin while the rest of the design is finalized, and he will come before Council at a later date to request approval of Amendment No. 2 that would authorize further portions of the project. As for the schedule, if approved, the structures would be relocated in August/September; the flume reconstruction will take months, once that approval is given.

11. EXECUTIVE SESSION:

City Attorney Hoffmann recommended item number 2 only for Executive Session, and the specific legal issues both relate to the Growth IGA and potential legislation.

Before a motion was made to go into Executive Session, Mayor Spellman wanted to point out the new banners for all the pedestrian light poles, which were fashioned after vignettes of stock certificates from mining companies here in Black Hawk from 1860-1870s. He said he collects the certificates and the original artwork went to an illustrator, then to a graphic artist, before being sent to the banner company. He said it was a great project and very distinctive to Black Hawk using original artwork drawing on the mining history, and the phrase play on mining phrases, which are just as relative today with the casinos. He believes Black Hawk is very unique in being able to create these banners and wanted to recognize and thank Melissa Greiner for all her hard work on this project, as well as other projects such as the seal, the plaque and the new clock tower for the plaza.

On that note, Alderman Bennett expressed how wonderful the fireworks were this year and that they went for a total of 36 minutes!
