COLORADO'S SECOND OLDEST MUNICIPAL CORPORATION

June 29, 2023

To the Honorable Mayor and Members of the City Council, Citizens of the City of Black Hawk, Colorado and the Financial Community:

We are pleased to transmit the Annual Comprehensive Financial Report (ACFR) of the City of Black Hawk for the year ended December 31, 2022. This submittal is in accordance with Colorado State Statutes and the City of Black Hawk Charter provisions. This report of the financial condition of the City as of December 31, 2022, and the activity which brought about that condition meets the City Charter requirements as well as provides full financial disclosure in accordance with generally accepted accounting principles (GAAP).

The Finance Department prepared this report in conformance with standards of the Governmental Accounting Standards Board, the American Institute of Certified Public Accountants, the Government Finance Officers Association (GFOA) and the Colorado State Auditor. Responsibility for both the accuracy of the presented data and the completeness and fairness of the presentation, including all disclosures, rests with the City's management.

The purpose of the ACFR is to provide citizens, investors, grantor agencies and other interested parties with reliable information concerning the financial condition of the City. The City management believes the data as presented is accurate in all material respects. The data is presented in a manner designed to set forth fairly the financial position and results of City operations as measured by the financial activity of its various funds. Also, all disclosures necessary to enable the reader to gain the maximum understanding of the City's financial affairs have been included.

State law requires that the financial statements of the City of Black Hawk be audited by independent certified public accountants selected by the City Council. The independent auditing firm of John Cutler & Associates, whose report is included herein, has audited the basic financial statements and related notes.

GAAP requires that the City's management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of a "Management's Discussion and Analysis" (MD&A). This transmittal letter should be read in conjunction with MD&A.

#### REPORTING ENTITY DEFINITION

The financial reporting entity, the City, includes all the funds of the primary government as well as all of its component units. Additional financial information concerning the blended component units may be obtained through the Finance Department of the City of Black Hawk, Colorado.

#### PROFILE OF THE CITY

The City is a political subdivision of the State of Colorado which was incorporated on March 11, 1864, under a territorial charter, prior to the time Colorado became a state in 1876. The City is located in central Colorado in Gilpin County, approximately 35 miles west of Denver at the intersection of state highways 119 and Black Hawk Street. The City is located at an altitude of 8,042 feet and covers an area of approximately three square miles. Since 2001, upon the approval by the City's residents of a home rule charter, the City has operated under Colorado law as a home rule municipality. The City charter establishes the powers of the City and describes its system of government.

Although the City had several thousand residents at its peak as a mining town in the late 1800's, the population decreased as the mines were depleted. Prior to the legalization of limited gaming in 1991, the City was generally a seasonal residential area and tourist attraction. Since limited gaming began in 1991, the population has decreased from approximately 227 in 1990 to around 100 residents today.

The City charter creates a Council-Manager form of government and establishes the City Council as the policy-making legislative body of the City. The City council consists of six Aldermen and a Mayor. The members of the City council are elected at large for staggered four-year terms, and the Mayor is elected from the City at large for a four-year term. The Mayor presides at all City council meetings and has the same power, rights and privileges as an alderman, except the mayor shall not vote except in the case of a tie vote. The City council currently meets on the second and fourth Wednesday of each month. Special meetings are held at the request of the Mayor or any two aldermen.

The City provides a wide range of services to its residents and guests including police protection, fire protection, public works, parks, public improvements, planning and zoning, water and general administration. Sanitation services are provided by the Black Hawk/Central City Sanitation District, gas and electric service is provided by Xcel Energy, and telephone service is provided by CenturyLink.

Although the City has a small population, the daily population ranges from 10,000 - 15,000 per day, primarily due to availability of gaming. Therefore, City staffing is much larger than that normally found in a small City.

#### LOCAL ECONOMY

The City's economy relies almost 100% on gaming for its revenue streams. The level of gaming activity within the City may be affected by, among other things, the amount of disposable income and

entertainment expenditures of individuals participating in gaming activities. The number of gaming devices operated within the City is subject to, among other things:

- The availability of space within a constitutionally defined area in which gaming is legal.
- The continued availability of money to finance the capital investment necessary to acquire, improve, construct or equip gaming establishments.
- The continued profitability of operating gaming establishments after the payment of winnings to players, all applicable licenses, taxes and fees and capital and operation expenses.

Currently, the City has 15 operating casinos with the largest ten accounting for 88.6% of device fee revenues for the City. The five largest casinos generate about 62.8% of device fee revenues. The casinos are continuing to expand; currently they make up over 1.5 million square feet, with the gaming area totaling over 232,000 square feet.

There is competition for gaming revenues. Currently, limited gaming is authorized in only three cities in the State, our City, Central City and Cripple Creek. Increases in the relative levels of gaming activity in the other two existing gaming towns in the state, the introduction of gaming to any additional Colorado local governments or the limiting of any fees imposed by the City on limited gaming may have a negative impact upon the economy and property values of the City and fees and taxes generated by the City.

#### LONG-TERM FINANCIAL PLANNING

The Board of Alderman of the City of Black Hawk have always made decisions and implemented policies that create long-term financial, economic and competitive incentives that benefit businesses within the City. These policies and incentives, many in the form of lower taxes and fees, have attracted and retained significant private investment in the Black Hawk casino market.

#### RELEVANT FINANCIAL POLICIES

#### Internal Control Structure

Management of the City is responsible for establishing and maintaining an internal control structure designed to ensure that the assets of the City are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with generally accepted accounting principles. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and, (2) the valuation of costs and benefits requires estimates and judgments by management.

All accounting records for general governmental operations at the fund level are maintained on a modified accrual basis with the revenues recorded when measurable and available, and expenditures recorded when the services or goods are received and the liabilities incurred.

#### Legislative Development

Colorado voters passed an amendment to the State Constitution, Article X, Section 20, (referred to as TABOR) which has several limitations including revenue raising, spending abilities, and other specific requirements of state and local governments. The amendment is complex and subject to judicial interpretation. The City believes it is in compliance with the requirements of the amendment. However, the City has made certain interpretations of the amendment's language in order to determine its compliance.

#### **MAJOR INITIATIVES**

The City of Black Hawk has plans to make significant investments in facilities and infrastructure over the next 12-24 months. The City recently completed the construction of Gregory Plaza, and is focused on renovations to other buildings along Gregory Street.

Recently, the City has received multiple inquiries from the private sector related to the expansion of existing casino properties.

#### AWARDS AND ACKNOWLEDGEMENTS

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Black Hawk for its annual comprehensive financial report for the fiscal year ended December 31, 2021. This was the 12th consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized annual comprehensive financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current annual comprehensive financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

Finally, credit also must be given to the Mayor and City council for their unfailing support for maintaining the highest standards of professionalism in the management of the City's finances.

Respectfully submitted,

Styphen N. Cole

#### INDEPENDENT AUDITOR'S REPORT

City Council City of Black Hawk Black Hawk, Colorado

#### Report on the Financial Statements

#### **Opinions**

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Black Hawk (the "City") as of and for the year ended December 31, 2022, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Black Hawk as of December 31, 2022, and the respective changes in financial position and, where applicable, cash flows, thereof for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

#### Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (GAAS). Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the City of Black Hawk, and to meet our ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

#### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgement made by a reasonable user based on the financial statements. We did not audit the financial statements of the Black Hawk Business Improvement District, which represent 0.0%, 0.0%, and 0.001%, respectively, the assets, fund balances, and revenues of the governmental funds.

In performing an audit in accordance with GAAS, we:

- Exercise professional judgement and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures of the financial statements.
- Detain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion of the effectiveness of the City's internal control. Accordingly, no such opinion is expressed.
- > Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- ➤ Conclude whether, in our judgement, there are conditions or events, considered in the aggregate, that raise substantial doubt about the City's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required budgetary and pension information on pages 51-56 be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board (GASB) who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

#### Supplementary and Other Information

John Luther & Associates, LLC

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules and State Compliance information as listed in the table of contents, are presented for purposes of additional analysis and are not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements.

The combining and individual fund financial statements and schedules and State Compliance have been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules and State Compliance are fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The introductory and statistical sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

June 28, 2023

#### MANAGEMENT'S DISCUSSION AND ANALYSIS

Within this section of the City of Black Hawk, Colorado (the City) annual financial report, the City's management is pleased to provide this narrative discussion and analysis of the financial activities of the City for the calendar year ended December 31, 2022. The City's financial performance is discussed and analyzed within the context of the accompanying financial statements, schedules and note disclosures following this section.

#### **Financial Highlights**

- The City's assets and deferred outflows of resources exceeded its liabilities and deferred inflows of resources by \$169,235,832 (net position) for the calendar year reported.
- Total net position is comprised of the following:
  - (1) Net investment in capital assets of \$126,080,406 includes property and equipment, net of accumulated depreciation, and reduced for outstanding debt related to the purchase or construction of capital assets.
  - (2) Net position of \$15,157,048 are restricted by constraints imposed from outside the City such as debt covenants, grantors, laws, or regulations.
  - (3) There is unrestricted net position of \$27,998,378.
- The City's governmental funds reported total ending fund balance of \$44,113,462 this year. This compares to the prior year ending fund balance of \$39,810,039 showing an increase of \$4,303,423 during the current year. Unassigned fund balance is \$22,755,452 at December 31, 2022.
- At the end of the current calendar year, unassigned fund balance for the general fund was \$22,755,452, or 123.3% of total general fund expenditures, excluding transfers.
- Overall, the City continues to maintain a strong financial position, in spite of the significant decline in revenues and the associated fund balance due to the COVID-19 pandemic.

The above financial highlights are explained in more detail in the "financial analysis" section of this document.

#### **Overview of the Financial Statements**

This Management Discussion and Analysis document introduces the City's basic financial statements. The basic financial statements include: (1) government-wide financial statements, (2) fund financial statements, and (3) notes to the basic financial statements. The City also includes in this report additional information to supplement the basic financial statements.

#### Government-wide Financial Statements

The City's annual report includes two government-wide financial statements. These statements provide both long-term and short-term information about the City's overall financial status. Financial reporting at this level uses a perspective similar to that found in the private sector with its basis in accrual accounting and elimination or reclassification of activities between funds.

The first of these government-wide statements is the *Statement of Net Position*. This is the government-wide statement of position presenting information that includes all of the City's assets, deferred outflows of resources, liabilities, and deferred inflows of resources with the difference reported as *net position*.

Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City as a whole is improving or deteriorating. Evaluation of the overall health of the City would extend to other nonfinancial factors such as diversification of the taxpayer base or the condition of City infrastructure, in addition to the financial information provided in this report.

As of and For the Year Ended December 31, 2022

The second government-wide statement is the Statement of Activities, which reports how the City's net position changed during the current calendar year. All current year revenues and expenses are included regardless of when cash is received or paid. An important purpose of the design of the statement of activities is to show the financial reliance of the City's distinct activities or functions on revenues provided by the City's taxpayers.

Both government-wide financial statements distinguish governmental activities of the City that are principally supported by gaming taxes from business-type activities that are intended to recover all or a significant portion of their costs through user fees and charges. Governmental activities include general government, planning, public safety, and public works. Businesstype activities include the water system.

The government-wide financial statements are presented on pages 17 & 18 of this report.

#### Fund Financial Statements

A fund is an accountability unit used to maintain control over resources segregated for specific activities or objectives. The City uses funds to ensure and demonstrate compliance with finance-related laws and regulations. Within the basic financial statements, fund financial statements focus on the City's most significant funds rather than the City as a whole. Major funds are separately reported while all others are combined into a single, aggregated presentation. Individual fund data for nonmajor funds is provided in the form of combining statements in a later section of this report.

The City has two kinds of funds:

Governmental funds are reported in the fund financial statements and encompass the same functions reported as governmental activities in the government-wide financial statements. However, the focus is very different with fund statements providing a distinctive view of the City's governmental funds. These statements report short-term fiscal accountability focusing on the use of spendable resources and balances of spendable resources available at the end of the year. They are useful in evaluating annual financing requirements of governmental programs and the commitment of spendable resources for the near-term.

Since the government-wide focus includes the long-term view, comparisons between these two perspectives may provide insight into the long-term impact of short-term financing decisions. Both the governmental fund balance sheet and the governmental fund operating statement provide a reconciliation to assist in understanding the differences between these two perspectives.

The basic governmental fund financial statements are presented on pages 19 - 22 of this report.

Individual fund information for nonmajor governmental funds is found in combining statements in a later section of this report.

The proprietary fund is reported in the fund financial statements and generally reports water service for which the City charges customers a fee. The City's proprietary fund is classified as an enterprise fund. This enterprise fund essentially encompasses the same functions reported as business-type activities in the government-wide statements.

The basic enterprise fund financial statements are presented on pages 23 - 26 of this report.

#### Notes to the Basic Financial Statements

The accompanying notes to the financial statements provide information essential to a full understanding of the governmentwide and fund financial statements. The notes to the financial statements begin on page 27 of this report.

#### Required Supplementary Information

In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the City's budget presentations. Budgetary comparison schedules are included as "required supplementary information" for the general fund and the major special revenue funds. Budgetary comparison schedules for all other governmental funds can be found in a later section of this report. These schedules demonstrate compliance with the City's adopted and final revised budget. These budget comparison schedules are presented on pages 52 - 55.

#### Supplementary Information

Combining and comparative individual statements and schedules for nonmajor funds are presented as supplementary information in this report beginning on page 59.

#### Financial Analysis of the City as a Whole

The City's net position at year-end is \$169,235,832. The following table provides a summary of the City's net position.

#### **Summary of Net Position**

	Governmen	tal Activities	Business-ty	pe Activities	Total			
	2022	2021	2022	2021	2022	2021		
Assets:								
Current assets	\$ 46,192,715	\$ 41,310,425	\$ 10,120,388	\$ 10,534,312	\$ 56,313,103	\$ 51,844,737		
Other assets	1,150,761	484,122	-	-	1,150,761	484,122		
Capital assets	115,869,707	113,199,331	32,349,586	33,078,538	148,219,293	146,277,869		
Total assets	163,213,183	154,993,878	42,469,974	43,612,850	205,683,157	198,606,728		
Deferred outflows	699,677	896,843			699,677	896,843		
Liabilities:								
Current liabilities	4,494,812	3,806,779	171,082	224,334	4,665,894	4,031,113		
Long-term liabilities	31,661,072	33,780,946	37,901	65,799	31,698,973	33,846,745		
Total liabilities	36,155,884	37,587,725	208,983	290,133	36,364,867	37,877,858		
Deferred inflows	782,135	1,523,599			782,135	1,523,599		
Net position:								
Net investment in capital assets	93,786,175	97,747,204	32,294,231	33,078,538	126,080,406	130,825,742		
Restricted	15,157,048	14,682,839	-	-	15,157,048	14,682,839		
Unrestricted	18,031,618	5,258,966	9,966,760	10,244,179	27,998,378	15,503,145		
Total net position	\$ 126,974,841	\$ 117,689,009	\$ 42,260,991	\$ 43,322,717	\$ 169,235,832	\$ 161,011,726		

The City continues to maintain a high current ratio. The current ratio compares current assets to current liabilities and is an indication of the ability to pay current obligations. The current ratio for governmental activities for 2022 is 10.3 to 1 as compared to a 10.8 to 1 at December 31, 2021. The current ratio for the business type activities at December 31, 2022 is 59.2 to 1. At December 31, 2021 the current ratio was 47.0 to 1. For the City overall, the 2022 current ratio is 12.1 to 1 as compared to 12.8 to 1 at December 31, 2021. These ratios are strong.

The City reported positive balances in net position for both governmental and business-type activities. Net position increased by \$9,285,832 for governmental activities and decreased by \$1,061,726 for business-type activities. The City's overall financial position strengthened during calendar year 2022.

Note that approximately 73.9% of the governmental activities' net position is tied up in capital. This compares to 83.0% at December 31, 2021. The City uses these capital assets to provide services to its citizens and guests. However, with business type activities, the City has spent approximately 76.4% of its net position on capital as compared to 76.3% at December 31, 2021. Capital assets in the business-type activities also provide utility services, but they also generate revenues for the fund. 74.5% of the City's total net position is included in capital assets as compared to 81.3% at December 31, 2021.

The following chart reports the total net position balances from calendar year 2013 - 2022.

(This page continued on the subsequent page)

The following table provides a summary of the City's changes in net position:

#### **Summary of Changes in Net Position**

	Governmental Activities				Business-ty	pe A	ctivities	Total				
2022		2022	2021			2022		2021		2022		2021

#### **GOVERNMENTAL REVENUES**

Gaming revenues provide the City's largest revenue stream. In 2022, the City recognized \$8,108,274 in device taxes levied on gaming devices located within the City's casinos compared to \$7,110,600 in 2021. This is an increase in revenue of 14.0%. 2021 revenues were negatively impacted by limitations on capacity due to COVID-19. The City also received \$12,313,295 from the State of Colorado for their share of the state gaming tax. This is a 54.9% increase when compared to the \$7,945,514 in 2021. Both profits from gaming activity and gaming taxes were higher in Black Hawk in 2022 than 2021. Finally, the City received \$4,320,270 from the State of Colorado Historical Society for preservation and restoration. This amount is paid to the City, through the State of Colorado, from casino gaming taxes paid to the State of Colorado. This amount compares to \$3,638,322 in 2021 an 18.7% increase.

In addition, the City relies on sales and use taxes to support governmental operations and capital. Sales and use taxes provided 24.5% of the City's general governmental revenues for 2022 as compared to 25.1% in 2021. The 2022 amount is \$671,446 more than the 2021 amount. Although the City's financial position has improved, the sharp increase in interest rates has impacted interest earnings, jumping from \$19,320 in 2021 to \$256,414 in 2022. In 2022, program revenues covered just 23.0% of operating costs. This means that the government's taxpayers and the City's other general governmental revenues (e.g., device taxes) fund 77.0% of the governmental activities. As a result, the general economy and the City businesses (i.e., primarily casinos) have a major impact on the City's revenue streams.

#### GOVERNMENTAL FUNCTIONAL EXPENSES

61.4% of the total expenses relates to public safety and public works. Note that general government reported more program costs in 2022 than program revenues. This revenue includes both preservation and restoration state funding and special assessments.

This table presents the cost of each of the City's programs, including the net costs (i.e., total cost less revenues generated by the activities). The net costs illustrate the financial burden that has been placed on the City's taxpayers by each of these functions.

#### **Governmental Activities**

	 20	22		2021				
	Total Cost of Services		Net Cost of Services		Total Cost of Services	Net Cost of Services		
General government	\$ 8,195,332	\$	3,235,642	\$	6,826,509	\$	2,180,406

Total	\$ 25,881,643	\$	19,940,231	\$	23,079,051	\$	17,583,522	

#### **BUSINESS-TYPE ACTIVITIES**

The City's only enterprise fund is the water fund. The Water Fund's net positions are \$42,260,991 at December 31, 2022 and \$43,322,717 at December 31, 2021 and were \$39,039,678 at December 31, 2020

The following table compares the water fund's statements of net position for the last three years:

#### **Summary of Net Position**

#### **BUSINESS-TYPE ACTIVITIES**

2022 Analysis - Base fees and tiered rates on consumption remained unchanged from 2021.

Total operating expenses increased approximately \$371,770 or 12.5% compared to 2021. General services, repairs & maintenance and non-capitalized capital outlay all had significant increases when compared to 2021.

With expenses outpacing the increased revenues, this fund reported an operating loss of \$166,197 as compared to an operating gain in 2021 of \$29,209. In total, the net position decreased \$1,061,726 in 2022, mostly due to net transfers out of \$1,100,000.

2021 Analysis – As illustrated in the chart above, 2021 revenues increased significantly when compared to 2020. A new large customer, plus a full year with minimal interruption from COVID increased water demand and corresponding revenues.

Total operating expenses decreased by approximately \$117,600 or 3.8% compared to 2020.

Between a healthy increase in revenues and a drop in expenses, this fund reported operating income of \$29,209 as compared to an operating loss in 2020 of \$725,216. In total, net position increased \$4,283,039 in 2021, due mostly to net transfers in of \$4,250,000.

#### Financial Analysis of the City's Funds

#### Governmental Funds

As discussed, governmental funds are reported in the fund statements with a short-term, inflow and outflow of spendable resources focus. This information is useful in assessing resources available at the end of the year in comparison with upcoming financing requirements. Governmental funds reported ending fund balances of \$44,113,462 as compared to \$39,810,039 at December 31, 2021. The majority of this increase relates to:

- Sizable increase in Taxes.
- Over a 36% increase in Intergovernmental revnue.

Of the 2022 year-end total fund balance, \$15,157,048 is restricted (including \$12,112,369 for the preservation & restoration fund, \$1,366,715 for the debt service fund and \$10,759 for the impact fee fund), \$675,230 is nonspendable, \$5,525,732 is assigned (including \$5,525,732 for the capital projects fund) and \$22,755,452 is unassigned.

The total ending fund balances of governmental funds show an increase of \$4,303,423 or 10.8% from the prior year. This compares to an increase of \$16,936,321 at December 31, 2021.

#### Major Governmental Funds

**General Fund** - The general fund is the City's primary operating fund and the largest source of day-to-day service delivery. The general fund's fund balance increased by \$8,722,097 or 55.5% in 2022. In calendar year 2021, the fund balance increased \$2,873,395.

Total revenues increased by \$6,117,061 or 26.9% in 2022 as compared to an increase of \$8,002,602 or 54.3% in 2021. The majority of the 2022 increase is from Taxes of \$1,628,949 and Intergovernmental of \$4,395,753. Additionally, as a percentage, Investment earnings were also up significantly in 2022.

The majority of the City's revenues relate to the gaming industry. On November 4, 2008, Colorado voters approved Amendment 50, giving the electorate in the state's three gaming cities the option to approve raising the maximum wager limit

# MANAGEMENT'S DISCUSSION AND ANALYSIS (Unaudited) As of and For the Year Ended December 31, 2022

up to \$100, add the games of craps and/or roulette, and allow 24-hour gaming effective July 2, 2009. The City's casinos have implemented these changes. In November 2020, Amendment 77 was approved by the voter of Colorado removing any limits on wagers and allowed new casino games.

In 2021, the Black Hawk casino industry has experienced improvements when compared to 2021. The average number of gaming devices available for play in the City increased by 539, going from 5,996 in 2021 to 6,535 in 2022. Even with the healthy increase, we are still trailing the 2019 figure of 7,062 devices. However, the amount of money wagered minus the amount paid out in prizes, known as Adjusted Gross Proceeds (AGP), increased 11.6% in 2022 as compared to 2021 and is up 32.6% when compared to 2019.

The City's share of the gaming tax on casinos is 10% of the total taxes paid to the State of Colorado, split between the three Colorado gaming cities, in proportion to the respective gaming revenue. The amount recognized in 2022 was \$12,313,295 or a 54.9% increase from 2021.

Tax revenues, comprised mostly of Sales & Use tax increased 12.2% when compared to 2021 levels.

The General fund received \$673,000 in transfers from the Preservation fund, the Transportation fund and the Water fund in 2021.

Expenditures in total increased \$1,723,359 or 10.3% in 2022.

The Mayor and Council program services expenditures increased by about \$499,197 due, in large part, to the increase in the Educational Enhancement sales tax passed on to the Gilpin School District.

Police expenditures increased by about \$160,225 in 2022, mostly due to personnel costs.

Fire expenditures increased by \$622,349 in 2022, due in large part to the staffing.

Public Works expenditures increased by \$326,980 in 2022, with personnel costs and general services making up the majority of this increase.

The general fund transferred \$3,053,000 to the debt service fund for debt payments. In 2021, the general fund transferred \$2,658,000 to the debt service fund.

After transfers out to other funds, the fund balance increased approximately \$8,722,000 from 2021. The 2022 ending fund balance is considered adequate, representing the equivalent of 132.5% of annual expenditures, excluding transfers as compared to 94.0% in 2021.

**Preservation and Restoration Fund** – During 2022, the City did not award any preservation and restoration grants to City property owners. The City expended \$3,874,191 on City owned preservation projects as compared to \$4,062,524 in 2021. The City received preservation and restoration funding from the State totaling \$4,320,270 as compared to \$3,638,322 in 2021.

*Transportation Device Fee Fund* – This fund received device fees of \$326,876 and transfers out of \$163,000 to the general fund. Additionally, this fund received \$229,682 in the form of fees from Central City for a shared bus service.

Business Improvement District Fund – This fund was dissolved on November 17, 2022.

Capital Projects Fund – The fund spent \$3,095,771 on capital outlay as compared to \$3,867,062 in 2021.

*Impact Fees Fund* – This fund had minimal activity with only \$53 in Investment earnings and \$825 in fees for 2022. At December 31, 2022, the fund balance was \$10,759.

#### **Budgetary Highlights**

**The General Fund** – The general fund's budget was not amended during 2022. Note that the budget is adopted on a non-GAAP budgetary basis, which means that capital assets acquired through capital leases are not reflected with the general fund's budget.

Actual revenues were \$6,075,849 more than budgeted, due to the uncertainty of the impact on the casino industry when the budget was prepared. As previously mentioned, device fees, taxes and intergovernmental revenues all out performed the budget.

Total expenditures before transfers were under budget by \$981,396.

The City spent 94.95% of the appropriated final budget, not including transfers.

#### **Capital Assets and Debt Administration**

#### Capital Assets

The City's investment in capital assets, net of accumulated depreciation, for governmental and business-type activities as of December 31, 2022, was \$115,869,706 and \$32,349,586 respectively. The total increase in this net investment was 2.4% for governmental activities and a 2.2% decrease for business-type activities. The overall increase was 1.3% for the City as a whole. See Note 3-D for additional information about changes in capital assets during the calendar year and outstanding at the end of the year. The following table provides a summary of capital asset activity.

#### **Capital Assets**

	Government	tal Activities	Business	Activities	Total		
	2022	2021	2022	2021	2022	2021	
Non-depreciable assets:							
Land	\$ 27,940,118	\$ 27,680,539	\$ 1,527,388	\$ 1,527,388	\$ 29,467,506	\$ 29,207,927

Infrastructure	65,877,560	65,877,560			65,877,560	65,877,560	
Total depreciable assets	120,554,168	120,140,794	42,200,946	41,987,364	162,755,114	162,128,158	
Less accumulated depreciation	52,705,906	48,846,360	22,697,118	21,505,347	75,403,024	70,351,707	
Book value - depreciable assets	67,848,262	71,294,434	19,503,828	20,482,017	87,352,090	91,776,451	
Percentage depreciated	44%	41%	54%	51%	46%	43%	
Book value - all assets	\$ 115,869,706	\$ 113,199,330	\$ 32,349,586	\$ 33,078,538	\$ 148,219,292	\$ 146,277,868	

At December 31, 2022, the depreciable capital assets for governmental activities were 44% depreciated. This compares slightly up from the December 31, 2021 percentage of 41%. This comparison indicates that the City is replacing its assets at a rate slightly slower than they are depreciating which is a negative indicator.

With the City's business type activities, 54% of the asset values are depreciated at December 31, 2022 compared to 51% at December 31, 2021.

The increase in the construction in progress relates to the following projects:

- 221 Gregory Street \$2,761,951
- Miners Road Improvements- \$1,979,327

In the water fund, most of the intangible assets are water rights.

#### Long-term Debt

The following table presents the outstanding debt at December 31, 2022 and 2021.

#### **Outstanding Borrowings**

See Note 3-F for additional information about the City's long-term debt.

#### **Economic Conditions Affecting the City**

The City was incorporated in 1864 and is located in central Colorado in Gilpin County, approximately 35 miles west of the City of Denver. The City has a population of only approximately 100. However, in 1990, the City became one of three Colorado cities in which limited gaming is permitted. As a result, the City must provide most of its services to a much larger population base due to gaming. The City receives almost all of its revenue from gaming related sources.

The level of gaming activity within the City can be affected by the amount of disposable income and entertainment expenditures of individuals participating in gaming activities. The number of gaming devices operated within the City is subject to:

- The availability of space within a constitutionally defined area in which limited gaming is legal
- The continued availability of monies to finance the capital investment necessary to acquire, improve, construct or equip gaming establishments
- The continued profitability of operating gaming establishments after the payment of winnings of players, all applicable licenses, taxes and fees and capital and operation expenses.

The City monitors the gaming community very thoroughly to insure a stable revenue base.

#### **Contacting the City's Financial Management**

This financial report is designed to provide a general overview of the City's finances, comply with finance-related laws and regulations, and demonstrate the City's commitment to public accountability. If you have questions about this report or would like to request additional information, contact the Finance Director or City Manager at the City, Post Office 68, Black Hawk, Colorado, 80422.

# City of Black Hawk, Colorado Reconciliation of the Statement of Revenues, Expenditures and Changes in Fund Balances of Governmental Funds to the Government-wide Statement of Activities For the Year Ended December 31, 2022

Net Changes In Fund Balances - Total Governmental Funds		\$ 4,303,423
Amounts reported for governmental activities in the statement of activities are different because		
Governmental funds report capital outlays as expenditures on the governmental fund type operating statement. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which capitalized capital outlay exceeded depreciation expense in the current period.		
Depreciation expense Capital outlay	\$ (3,859,546) 6,529,922	2,670,376
Accrued interest is reported in the statement of activities, but does not require the use of financial resources and therefore are not reported as expenditures in governmental funds.		
Liability @ 12/31/22 Liability @ 12/31/21	\$ 88,203 (96,853)	8,650
Deferred charges, premiums and discounts on bond issues are reported in the governmental fund's operating statement because these transactions require the use of current financial resources but are capitalized on the government-wide statement of net position.		-
Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.  Principal retirement		2,095,000
Issuance of long-term debt provides current financial resources to government funds, however issuance creates additional long-term liabilities in the statement of net position.		-
Deferred charges related to pensions are not recognized in the governmental funds, however for the government wide funds the amount is capitalized and amortized		301,308
Compensated absences are reported in the government-wide statement of activities, but do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Liability @ 12/31/22 Liability @ 12/31/21	\$ (829,004) 736,079	(92,925)
Change In Net Position of Governmental Activities		\$ 9,285,832

# City of Black Hawk, Colorado Water Fund

The City of Black Hawk, Colorado (the "City") became a home rule city January 16, 2001, as authorized by Article 20 of the Colorado State Constitution. Prior to that date, the City functioned as a territorial charter city. A City Aldermen/Manager form of government governs the City with a Mayor and Board of Aldermen. The City Aldermen appoint the City Manager. The City provides the following services: public safety, street maintenance, public improvements, culture-recreation, planning and zoning, water services and general administration.

## Note 1 - Summary of Significant Accounting Policies

The financial statements of the City have been prepared in conformity with accounting principles generally accepted in the United States (GAAP) as applied to governments. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for governmental accounting and financial reporting principles.

The most significant of the City's accounting policies are described below.

## 1-A. Reporting Entity

The reporting entity is comprised of the primary government, component units and other organizations that are included to ensure that the financial statements are not misleading. The primary government of the City consists of all funds, departments, boards and agencies that are not legally separate from the City. For the City, this entity includes the legal entity of the City and two blended component units.

Component units are legally separate organizations for which the City is financially accountable. The City is financially accountable for an organization if the City appoints a voting majority of the organization's governing board and (1) the City is able to significantly influence the programs or services performed or provided by the organizations; or (2) the City is legally entitled to or can otherwise access the organization's resources; the City is legally obligated or has otherwise assumed the responsibility to finance the deficits of, or provide financial support to, the organization; or the City is obligated for the debt of the organization. Component units also may include organizations that are fiscally dependent on the City in that the City approves the budget, levies their taxes or issues their debt.

Brief descriptions of the blended component units follow:

Black Hawk Business Improvement District (the District) – The District was created by ordinance passed by the City's Board of Alderman on July 26, 1995. The purpose of the District is to construct public improvements for gaming and commercial interests within the City. A separate & distinct board of directors made up of business operators located within the service area is appointed by the City's Board of Alderman, governs the District. The District board of directors shall annually file its operating plan and budget with the City for the approval of the Board of Alderman. The District is reported as blended component unit due to the Board of Alderman's operational responsibility for the component unit and because the activities of the District, financing for public improvements & services, exclusively benefit the City. On October 18, 2022, the District's board of directors voted to dissolve the District and to transfer all of the assets and liabilities to Silver Dollar Metropolitan District ("Silver Dollar"). On October 26, 2022, the City of Black Hawk passed ordinance number 2022-23 stating that all outstanding indebtedness, obligations and liabilities of the District will have been satisfied by December 31, 2022 and dissolved the District effective on or before December 31, 2022. On November 1, 2022, the District entered into an Agreement Regarding Transfer and Use of Remaining BID Funds with Silver Dollar. On November 17, 2022, the Districts assets were transferred to Silver Dollar pursuant to the Agreement, and the District was dissolved. The District issues a separate financial report, which is available at the offices of Colorado CPA Company, P.O. Box 630154, Highlands Ranch, Colorado, 80163.

**Black Hawk Urban Renewal Authority** (Renewal Authority) – The Renewal Authority was created by resolution passed by the City's Board of Alderman in July 2008. The purpose of the Renewal Authority is to develop urban renewal projects. The Board of Alderman serves as the Renewal Authority's governing board. The Authority does not issue separate financial statements. Since the Renewal Authority has the same governing body as the City, is fiscally dependent on the City and the City has operational responsibility for the Authority, the Authority is reported as a blended component unit. During 2021, the Renewal Authority had no financial activity.

## Note 1 - Summary of Significant Accounting Policies (Continued)

## 1-B. Basis of Presentation

The City's basic financial statements consist of government-wide statements, including a statement of net position and a statement of activities and fund financial statements, which provide a more detailed level of financial information.

**Government-wide Financial Statements** - The government-wide financial statements include a statement of net position and a statement of activities. These statements report financial information for the City as a whole. The primary government and the component units are presented separately within these financial statements with the focus on the primary government.

Individual funds are not displayed but the statements distinguish governmental activities, generally supported by taxes and grants and the City's general revenues, from business-type activities, generally financed in whole or in part with charges for services to external customers.

The statement of net position presents the financial position of the governmental and business-type activities of the City and it's discretely presented component units at year-end.

The statement of activities presents a comparison between direct expenses and program revenues for each function of the City's governmental activities and for each identifiable activity of the business-type activities of the City. Direct expenses are those that are specifically associated with a function and therefore clearly identifiable to that particular function. The City does not allocate indirect expenses to functions in the statement of activities.

The statement of activities reports the expenses of a given function offset by program revenues directly connected with the functional program. A function is an assembly of similar activities and may include portions of a fund or summarize more than one fund to capture the expenses and program revenues associated with a distinct functional activity. Program revenues include: (1) charges for services which report fees and other charges for services to users of the City's services and fines; (2) operating grants and contributions which finance annual operating activities including restricted investment earnings; and (3) capital grants and contributions which fund the acquisition, construction, or rehabilitation of capital assets. These revenues are subject to externally imposed restrictions to these program uses. For identifying the function to which the program revenue pertains, the determining factor for *charges for services* is which function *generates* the revenue. For *grants and contributions*, the determining factor is to which function the revenues are *restricted*.

Other revenue sources not properly included with program revenues are reported as general revenues of the City, primarily taxes. The comparison of direct expenses with program revenues identifies the extent to which each governmental function and each identifiable business activity is self-financing or draws from the general revenues of the City.

**Fund Financial Statements** - During the year, the City segregates transactions related to certain City functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. Fund financial statements are designed to present financial information of the City at this more detailed level. Fund financial statements are provided for governmental and proprietary funds.

Major individual governmental and enterprise funds are reported in separate columns.

**Fund Accounting** - The City uses funds to maintain its financial records during the year. A fund is a fiscal and accounting entity with a self-balancing set of accounts. The City uses two categories of funds: governmental and proprietary.

Governmental Funds - Government funds are those through which most governmental functions typically are financed. Governmental fund reporting focuses on the sources, uses and balances of current financial resources. Expendable assets are assigned to the various governmental funds according to the purposes for which they may or must be used. Fund liabilities are assigned to the fund from which they will be liquidated. The City reports the difference between governmental fund assets and liabilities as fund balance. The following are the City's major governmental funds:

## Note 1 - Summary of Significant Accounting Policies (Continued)

**General Fund** – The general fund accounts for all financial resources except those required to be accounted for in another fund. The general fund's fund balance is available to the City for any purpose provided it is expended or transferred according to the general laws of the State of Colorado.

**Preservation and Restoration Fund** – This fund accounts for the various preservation and restoration programs of the City, which are primarily funded through gaming revenues received from the State of Colorado, earmarked for this purpose.

**Transportation Device Fee Fund** – This fund accounts for the collection of device fees levied on all gaming devices within the City to finance transportation services. All transportation expenditures are reported in the General fund and are funded from transfers from this fund.

**Business Improvement District Fund** – This fund accounts for marketing and the construction of public improvements to the commercial district and is funded by the imposition of property taxes and device fees on the casinos within its boundaries.

**Debt Service Fund** – This fund receives transfers from the general fund and retires the governmental activities bonded debt, excluding the District's debt.

Capital Projects Fund – This fund accounts for the construction of significant City capital projects.

*Impact Fee Fund* – This fund accounts for the parking and related projects of the City which are funded through an impact fee collected from new developments within the City.

**The Proprietary Fund** - Proprietary fund reporting focuses on the determination of operating income, changes in net position, financial position and cash flows. The City's proprietary fund is classified as a major enterprise fund.

Water Fund – This fund accounts for the operations of the City's water system.

## 1-C. Measurement Focus

Government-wide Financial Statements - The government-wide financial statements are prepared using the economic resources measurement focus. All assets and all liabilities associated with the operation of the City are included on the statement of net position. The statement of activities reports revenues and expenses.

Fund Financial Statements - All governmental funds are accounted for using a flow of current financial resources measurement focus. With this measurement focus, only current assets and current liabilities generally are included on the balance sheet. The statement of revenues, expenditures and changes in fund balances reports the sources (i.e., revenues and other financing sources) and uses (i.e., expenditures and other financing uses) of current financial resources. This approach differs from the manner in which the governmental activities of the government-wide financial statements are prepared. Governmental fund financial statements therefore include a reconciliation with brief explanations to better identify the relationship between the government-wide statements and the governmental fund statements.

Like the government-wide statements, the proprietary fund type is accounted for on a flow of economic resources measurement focus on both financial reporting levels. All assets and all liabilities associated with the operation of these funds are included on the statements of net position. The statements of changes in fund net position present increases (i.e., revenues) and decreases (i.e., expenses) in net position. The statement of cash flows provides information about how the City finances and meets the cash flow needs of its proprietary activities.

## Note 1 - Summary of Significant Accounting Policies (Continued)

## 1-D. Basis of Accounting

Basis of accounting determines when transactions are recorded in the financial records and reported on the financial statements. Government-wide financial statements are prepared using the accrual basis of accounting. At the fund reporting level, the governmental funds use the modified accrual basis of accounting. The proprietary fund uses the accrual basis of accounting at both reporting levels. Differences in the accrual and the modified accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures.

**Revenues - Exchange Transactions** - Revenue resulting from exchange transactions, in which each party gives and receives essentially equal value, is recorded on the accrual basis when the exchange takes place. On the modified accrual basis, revenue is recorded when the exchange takes place and in the calendar year in which the resources are measurable and become available. Available means that the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current calendar year. For the City, the phrase "available for exchange transactions" means expected to be received within 60 days of year-end.

**Revenues - Non-Exchange Transactions -** Non-exchange transactions in which the City receives value without directly giving equal value in return, include property taxes, specific ownership taxes, sales taxes, device fees, grants, and contributions. On an accrual basis, revenue from property taxes and specific ownership taxes is recognized in the calendar year for which the taxes are levied. (Note 3-C) Property taxes are assessed in one year for the subsequent years' budget. Recognition for the levy made in 2020 is revenue for the 2021 budget year. Therefore, a property tax receivable and a liability of an equal amount are reported as "deferred inflow" on the government-wide statement of net position and as deferred revenue at the fund financial reporting level. Sales taxes are recognized in the year, in which the underlying event takes place (i.e., the calendar year in which the sale takes place).

Revenue from grants and contributions is recognized in the calendar year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the year when use is first permitted, matching requirements, in which the City must provide local resources to be used for a specified purpose, and expenditure requirements, in which the resources are provided to the City on a reimbursement basis. On a modified accrual basis, revenue from non-exchange transactions also must be available (i.e., collected within 60 days) before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be susceptible to accrual: property taxes, sales taxes, device taxes and federal and state grants.

**Expenses/Expenditures** - On the accrual basis of accounting, expenses are recognized at the time they are incurred. On the modified accrual basis, expenditures generally are recognized in the accounting period in which the related fund liability is incurred and due, if measurable.

## Note 1 - Summary of Significant Accounting Policies (Continued)

## 1-E. Assets, Liabilities and Fund Equity

## 1-E-1 Cash, Cash Equivalents, and Investments

Cash balances of most City funds are pooled and invested. Interest earned from investments purchased with pooled cash is allocated to each fund based on the fund's average equity balance in the pooled fund. For the purpose of the statement of cash flows, the City considers cash and cash equivalents to include amounts in demand deposits as well as short-term investments with a maturity date within three months of the date acquired by the City.

Investments are stated at fair value based on quoted market prices.

Colorado law authorizes the City to invest in the following type of obligations:

- Obligations of the United States and certain U.S. government agency securities.
- Certain international agency securities.
- General obligation and revenue bonds of U.S. local government entities.
- Bankers' acceptances of certain banks.
- Commercial paper limited to securities with highest rating category by at least one nationally recognized rating agency at time of purchase.
- Written repurchase agreements collateralized by certain authorized securities.
- Certain money market funds.
- Guaranteed investment contracts.
- Local government investment pools.

## 1-E-2 Receivables

All trade and property tax receivables are reported net of an allowance for uncollectibles, where applicable. Unbilled water charges are accrued as receivables and revenue at December 31, 2022.

## 1-E-3 Interfund Balances

On the fund financial statements, receivables and payables resulting from short-term transactions or interfund loans are classified as "interfund receivables/interfund payables." These amounts are eliminated in the governmental and business-type activities columns of the statement of net position, except for any net residual amounts due between governmental and business-type activities, which are reclassified and presented as internal balances.

## 1-E-4 Consumable Inventory

On the government-wide financial statements, inventories are presented at cost on a first-in, first-out basis and are expensed when used (i.e., the consumption method).

On the fund financial statements, inventories of governmental funds, as well as the enterprise fund, are stated at cost. For all funds, cost is determined on a first-in, first-out basis. The cost of inventory items is recorded as an expenditure in the governmental fund types when consumed. Inventories of the enterprise fund are expensed when consumed. These inventories consist primarily of fuel and public works parts.

## 1-E-5 Prepaid Items

On the government-wide and governmental fund financial statements, prepaids are presented using the consumption method.

.

## Note 1 - Summary of Significant Accounting Policies (Continued)

## 1-E-6 Restricted Assets

Cash and investments are restricted for debt service applicable to various debt obligation covenants. These covenants require the smaller of 125% of Average Annual Debt Service, Maximum Annual Debt Service or 10% of Outstanding Principal be restricted.

## 1-E-7 Capital Assets

General capital assets are those assets not specifically related to activities reported in the proprietary fund. These assets generally result from expenditures in governmental funds. The City reports these assets in the governmental activities column of the government-wide statement of net position but does not report these assets in the City fund financial statements. Capital assets utilized by the enterprise fund are reported both in the business-type activities column of the government-wide statement of net position and in the enterprise fund's statement of net position.

All capital assets are capitalized at cost (or estimated historical cost) and updated for additions and retirements during the year. Donated capital assets are recorded at their acquisition value as of the date received. The City maintains a capitalization threshold of five thousand dollars for all capital assets other than land. All land is recorded, without regard to its cost. The City's reported infrastructure consists of drainage structures, retaining walls and street lighting. Improvements to capital assets are capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend an asset's life are expensed. Interest incurred during the construction of capital assets utilized by the enterprise fund is capitalized.

The City capitalizes the cost of water rights, which includes the acquisition cost, legal and engineering costs related to the development and augmentation of those rights. Since the rights have a perpetual life, they are not amortized. All other costs, including costs incurred for the protection of those rights, are expensed.

The City capitalizes works of art and historical treasures, consisting primarily of statues and sculptures. These works are not depreciated since they are inexhaustible.

All reported capital assets are depreciated except for land, water rights, works of art and historical treasures and construction in progress. Improvements are depreciated over the remaining useful lives of the related capital assets. Useful lives for infrastructure were estimated based on the City's historical records of necessary improvements and replacement.

Depreciation is computed using the straight-line method over the following useful lives:

	Estimated Lives				
Asset Class	Governmental Activities	Business-type Activities			
Buildings and improvements	25 - 40 Years				
Vehicles and equipment	5 - 20 Years	5 - 20 Years			
		3 - 20 Years			
General government infrastructure	15 - 25 Years	40.37			
Water plant and equipment		40 Years			
Water distribution system		10 - 30 Years			

At the inception of capital leases at the governmental fund reporting level, expenditures and an "other financing source" of an equal amount are reported at the net present value of future minimum lease payments.

## Note 1 - Summary of Significant Accounting Policies (Continued)

## 1-E-8 Compensated Absences

Paid Time Off benefits are accrued as a liability as the benefits are earned if the employees' rights to receive compensation are attributable to services already rendered and it is probable that the employer will compensate the employees for the benefits through paid time off or some other means.

Sick leave benefits do not vest.

All compensated absence liabilities include salary-related payments, where applicable.

The total compensated absence liability is reported on the government-wide financial statements. The proprietary fund reports the total compensated liability in this fund at the fund reporting level. Governmental funds report the compensated absence liability at the fund reporting level only "when due."

## 1-E-9 Accrued Liabilities and Long-term Obligations

All payables, accrued liabilities and long-term obligations are reported in the government-wide financial statements.

In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of these funds. However, compensated absences that will be paid from governmental funds are reported as a liability in the fund financial statements only to the extent that they are "due for payment" during the current year. Bonds and capital leases are recognized as a liability in the governmental fund financial statements when due.

## 1-E-10 Bond Premiums, Discounts, Refunding Differences

On the government-wide statement of net position and the proprietary fund type statement of net position, unamortized bond premiums and discounts are netted against bonds payable. On the government-wide and proprietary fund type statement of activities, bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bond refunding differences are amortized over the shorter of the life of the refunding debt or refunded debt.

At the governmental fund reporting level, bond premiums and discounts are reported as other financing sources and uses, separately from the face amount of the bonds issued.

## 1-E-11 Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position and balance sheets will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net assets that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to the liabilities, the statement of financial position and balance sheets will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net assets that applies to a futures period(s) and so will not be recognized as an inflow of resources (revenue) until that time.

## Note 1 - Summary of Significant Accounting Policies (Continued)

## 1-E-12 Fund Equity

Fund equity at the governmental fund financial reporting level is classified as "fund balance." Fund equity for all other reporting is classified as "net position." In fiscal year 2011, the City implemented GASB Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions.

**Net Position** - The government-wide and business-type fund financial statements utilize a net position presentation. Net position is categorized as investment in capital assets, restricted, and unrestricted.

- Investment in Capital Assets is intended to reflect the portion of net position which are associated with non-liquid, capital assets less outstanding capital asset related debt. The net related debt is the debt less the outstanding liquid assets and any associated unamortized cost.
- Restricted Net Position are liquid assets, which have third party limitations on their use.
- Unrestricted Net Position represent assets that do not have any third party limitation on their use. While City management may have categorized and segmented portion for various purposes, the City Council has the unrestricted authority to revisit or alter these managerial decisions.

Fund Balance – Fund Balance – Generally, fund balance represents the difference between the current assets and current liabilities. In the fund financial statements, governmental funds report fund classifications that comprise a hierarchy based primarily on the extent to which the City is bound to honor constraints on the specific purposes for which amounts in those funds can be spent. Fund balances are classified as follows:

- Nonspendable Fund balances are reported as nonspendable when amounts cannot be spent because they are
  either (a) not in spendable form (i.e., items that are not expected to be converted to cash) or (b) legally or
  contractually required to be maintained intact.
- **Restricted** Fund balances are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the City or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.
- *Committed* Fund balances are reported as committed when they can be used only for specific purposes pursuant to constraints imposed by formal action of the City Aldermen through the approval of a resolution. Only, the City Aldermen also may modify or rescind the commitment.
- Assigned Fund balances are reported as assigned when amounts are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. Intent is expressed by the City Aldermen to be used for a specific purpose.
- *Unassigned* Fund balances are reported as unassigned as the residual amount when the balances do not meet any of the above criterion. The City reports positive unassigned fund balance only in the general fund.

*Flow Assumptions* — When both restricted and unrestricted amounts of fund balance are available for use for expenditures incurred, it is the City's policy to use restricted amounts first and then unrestricted amounts as they are needed. For unrestricted amounts of fund balance, it is the City's policy to use fund balance in the following order:

- Committed
- Assigned
- Unassigned

## Note 1 - Summary of Significant Accounting Policies (Continued)

## 1-E-13 Operating and Nonoperating Revenues and Expenses

Operating revenues are those revenues that are generated directly from the primary activity of the proprietary funds. For the City, these revenues are charges for services for providing water. Operating expenses are necessary costs incurred to provide the water services. All other revenues and expenses are considered nonoperating including investment earnings, interest expense and amortization.

## 1-E-14 Contributions of Capital

Contributions of capital in proprietary fund financial statements arise from outside contributions of capital assets, system development fees, water tap fees or from grants or outside contributions of resources restricted to capital acquisition and construction (e.g., water lines).

## I-E-15 Device Fees Tax

The City adopted an ordinance imposing an occupational tax (i.e., a device fee) on gaming devices used within the City. The fee is paid on all gaming devices for which the State of Colorado has issued a device tax stamp. The City annual device fee tax is \$1,050 per slot machine and \$4,200 per live table game for 2022. The annual transportation device tax is about \$44.16 per device.

## I-E-16 Impact Fees

The City imposes two types of impact fees.

**Parking Impact Fees** – The City imposes a parking impact fee, charged to developers at the time of application for a building permit. The fee is levied to aid the development of additional parking facilities. The fee is \$2,000 for each required parking space based upon various factors included in the ordinance. Parking impact fees not expended or encumbered within ten years from the date of collection are refunded.

**Fire and Police Impact Fees** - The City imposes a fire and police impact fee, charged to developers at the time of application for a building permit. The fee is levied for the acquisition of facilities and equipment for public safety. The fees are based upon the type and size of the development. These impact fees not expended or encumbered within six years from the date of collection are refunded.

## 1-E-17 Interfund Activity

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as interfund transfers. Interfund transfers are reported as other financing sources/uses in governmental funds and after non-operating revenues/expenses section in the proprietary fund. Repayments from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements (i.e., they are netted).

Transfers between governmental and business-type activities on the government-wide statement of activities are reported separately after general revenues. Transfers between funds reported in the governmental activities column are eliminated.

## 1-E-18 Estimates

The preparation of the financial statements in conformity with GAAP in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results may differ from those estimates.

## Note 1 - Summary of Significant Accounting Policies (Continued)

## 1-E-19 Comparative Data

Comparative total data for the prior year have been presented only for individual funds in the fund financial statements in order to provide an understanding of the changes in the financial position and operations of these funds. Also, certain amounts presented in the prior year data have been reclassified to be consistent with the current year's presentation.

## 1-E-20 Related Parties

The Mayor and Board of Alderman and resident City employees may receive preservation and restoration grants to restore their personal property in accordance with City policy and State Statutes.

## Note 2 – Stewardship, Compliance and Accountability

**2-A.** Budgetary Information – The City adopts an annual operating budget for all governmental funds. The budget resolution reflects the total of each department's appropriation in each fund. The City also adopts an annual budget for its water fund.

Annual budgets are adopted for City funds. The budgets are adopted on a basis consistent with GAAP for all governmental fund types with the following exception:

- Any inceptions of capital leases and related capital outlay are not budgeted
- The budget for the water fund is adopted on the modified accrual basis of accounting (i.e., a non-GAAP budgetary basis)

The legal level of control (the level at which expenditures may not legally exceed appropriations) for each adopted annual operating budget is the total appropriation within each individual fund. Any change in total to a fund appropriation requires approval of the City's Board of Aldermen.

## 2-B. Emergency Reserves

In 1992, Colorado voters approved an amendment to the Colorado Constitution that placed certain limits on revenue and expenditures of the state and local governments. Although the limit is placed on both revenue and expenditures, the constitutional amendment actually applies to revenue collections. The amendment is complex and subject to judicial interpretation.

However, cities have the option of placing a ballot measure before the voters asking for approval on retaining the revenue over the limit. The City's voters approved a ballot measure on November 7, 1995 that allows the City to exclude all revenues from those included within Article X, Section 20 of the Colorado Constitution.

Article X, Section 20 of the Colorado Constitution requires a reserve of 3% of its fiscal spending for emergencies. The use of this reserve is restricted to the purpose for which it was established and can be used solely for declared emergencies. In accordance with Article X, Section 20 of the Colorado Constitution, the City has restricted all fund balances for future expenditures in the general fund.

## Note 3 - Detailed Notes on All Funds

## 3-A. Deposits and Investments

## **Deposits**

Colorado State statutes govern the City's deposit of cash. The Public Deposit Protection Act (PDPA) for banks and savings and loans requires the state regulators to certify eligible depositories for public deposits. The Act requires eligible depositories with public deposits in excess of the federal insurance levels to create a single institution collateral pool of defined eligible assets. Eligible collateral includes obligations of the United States, obligations of the state of Colorado or local Colorado governments, and obligations secured by first lien mortgages on real property located in the state. The pool is to be maintained by another institution or held in trust for all the uninsured public deposits as a group. The market value of the assets in the pool must be at least equal to 102% of the uninsured deposits.

Custodial Credit Risk – The custodial credit risk for deposits is the risk that, in the event of a bank failure, the City's deposits may not be recovered.

At December 31, 2022, the carrying amount of the City's deposits was \$53,708,303 and the bank balance was \$54,327,725. Of the bank balance, \$10,613,231 was covered by federal deposit insurance and \$34,728,381 was covered by the provisions of the Colorado Public Deposit Protection Act (i.e., cash collateralized with securities held by the pledging financial institution's trust department or agent in the City's name).

## Investments

*Interest Rate Risk* – Interest rate risk is the risk that changes in interest rates of debt investments will adversely affect the fair value of an investment. The City has no formal policy regarding interest rate risk.

Investment Type	Fair Value
Money market accounts Colotrust state investment pool	\$ 434,888 8,550,125
Total	\$ 8,985,013

The City had invested \$8,550,125 in the Colorado Government Liquid Asset Trust (ColoTrust) which has a credit rating of AAAm by Standard and Poor's. ColoTrust is an investment vehicle established for local government entities in Colorado to pool surplus funds and is regulated by the State Securities Commissioner. It operates similarly to a money market fund and each share is equal in value to \$1.00. Investments consist of U.S. Treasury and U.S. Agency securities, and repurchase agreements collateralized by U.S. Treasury and U.S. Agency securities. A designated custodial bank provides safekeeping and depository services in connection with the direct investment and withdrawal functions. Substantially all securities owned are held by the Federal Reserve Bank in the account maintained for the custodial bank. The custodian's internal records identify the investments owned by the entities.

The unit of account is each share held, and the value of the position would be the fair value of the pool's share price multiplied by the number of shares held. The government-investor does not "look through" the pool to report a pro rata share of the pool's investments, receivables, and payables.

Fair Value of Investments—The City measures and records its investments using fair value measurement guidelines established by generally accepted accounting principles. These guidelines recognize a three-tiered fair value hierarchy, as follows:

- Level 1: Quoted prices for identical investments in active markets;
- Level 2: Observable inputs other than quoted market prices; and,
- Level 3: Unobservable inputs.

## Note 3 - Detailed Notes on All Funds (Continued)

The City had the following recurring fair value measurements as of December 31, 2022:

• Money market account-Valued at the daily closing price as reported by the fund.

The money market accounts are made up of forfeited non-vested employer 401 contributions with ICMA Retirement Corporation. These funds are available to be used towards future employer 401 contributions. This investment is valued using Level 2 inputs.

Credit Quality Risk – Credit quality risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. Colotrust, a local government investment pool that the City invests in, is rated AAAm by Standard & Poor's. This pool is rated AAA by Fitch and Moody's. The money market account is invested exclusively in Colotrust. The maturity schedules for the above investments are less than one year. The City has no policy regarding credit risk.

Custodial Credit Risk - Custodial credit risk is the risk that, in the event of a bank failure, the City's investments may not be recovered.

**Concentration of Credit Risk** – Concentration of credit risk is the risk of loss attributed to the magnitude of the City's investment in a single issuer. The City has all investments in a local government investment pool, Colotrust.

## Cash and Investment Reconciliation

Petty cash Deposits Investments	\$ 1,100 44,722,190 8,985,013
Total Cash and Investments	\$ 53,708,303
Fund Reporting Level	
Governmental fund type - balance sheet Governmental fund type - balance sheet - restricted Proprietary fund type - statement of net position	\$ 42,414,301 1,426,000 9,868,002
Total	\$ 53,708,303

## 3-B. Receivables

Receivables at December 31, 2022, consisted of taxes, interest, accounts (billings for user charges, including unbilled utility receivables), and intergovernmental receivables arising from grants.

Receivables and payables are recorded on the City's financial statements to the extent that the amounts are determined to be material and substantiated not only by supporting documentation, but also by a reasonable, systematic method of determining their existence, completeness, valuation, and in the case of receivables, collectability.

## 3-C. Property Taxes

Annual property taxes are levied by the City on assessed valuation as of January 1, and attached as an enforceable lien on the property at that time. Generally, property taxes are levied on December 15 for the subsequent year's operations. The taxes are payable by April. However, taxpayers may pay property taxes in two equal installments, in February and June.

Delinquent taxpayers are notified in August and generally sales of tax liens on delinquent properties are held in November or December. The County treasurer remits the taxes collected monthly to the City.

Note 3 - Detailed Notes on All Funds (Continued)

## 3-D. Capital Assets

Capital asset activity for governmental activities for the year ended December 31, 2022, was as follows:

	Balance 1/1/2022	Additions	Deductions	Balance 12/31/2022
Governmental activities:				
Nondepreciable capital assets:				
Land	\$ 27,680,539	\$ 259,579	\$ -	\$ 27,940,118

## Note 3 - Detailed Notes on All Funds (Continued)

## 3-E. Interfund Transfers

Interfund Transfers - Interfund transfers for the year ended December 31, 2022, consisted of the following:

			Trai	nsfers from:			
Transfer to	General fund	nsportation evice Fee fund		servation & estoration fund	Pr	apital ojects fund	 Total
Debt service fund	\$ 3,053,000	\$ -	\$	-	\$	-	\$ 3,053,000
Water fund	-	-		-		-	-
Capital Projects fund	-	-		-		-	-
Preservation & Restoration fund	-						-
General fund		 163,000		110,000		-	 273,000
Total	\$ 3,053,000	\$ 163,000	\$	110,000	\$	-	\$ 3,326,000

Transfers are used to report revenues from the fund that statute or budget requires to collect them to the fund that statute or budget requires to expend them and unrestricted revenues collected in the general fund to finance various programs accounted for in other funds in accordance with budgetary authorizations; to segregate money for anticipated capital projects; and to provide additional resources for current operations or debt service.

All City transfers either occur on a regular basis or are consistent with the purpose of the fund making the transfer.

## 3-F. Long-Term Debt

Governmental Activities Bonds - The following is a summary of the outstanding long-term bonds at December 31, 2022.

2013 Device Tax Revenue Bonds, Series 2013 - On December 18, 2013, the City issued device tax revenue bonds, in the amount of \$10,000,000, to acquire certain water rights and replace a water treatment plant. The Series 2013 bonds carry an interest rate of 4.17% with final maturity on December 1, 2033.

Annual debt service requirements to amortize this debt, as of December 31, 2022 follow:

	Series 2013						
Year	Principal	Total					
2023	525,000	297,113	822,113				
2024	545,000	275,220	820,220				
2025	570,000	252,494	822,494				
2026	590,000	228,725	818,725				
2027	615,000	204,122	819,122				
2028-2033	4,280,000	645,723	4,925,723				
			_				
Total	\$ 7,125,000	\$ 1,903,397	\$ 9,028,397				

## Note 3 - Detailed Notes on All Funds (Continued)

**2014 Device Tax Revenue Bonds, Series 2014A** - On January 9, 2014, the City issued device tax revenue bonds, in the amount of \$10,000,000, to fund certain road and infrastructure improvements along Gregory Street. The Series 2014A bonds carry an interest rate of 4.23% with final maturity on December 1, 2033.

Annual debt service requirements to amortize this debt, as of December 31, 2022 follow:

	Series 2014A						
Year	Principal	Interest	Total

2026	595,000	232,862	827,862				
2027	620,000	207,693	827,693				
2028-2033	4,290,000	657,342	4,947,342				
Total	\$ 7,135,000	\$ 1,936,283	\$ 9,071,283				

**2021 Lease Purchase Agreement, Series 2021** - On November 5, 2021, the City entered into a Lease Purchase Agreement in the amount of \$20,000,000. The Series 2021 bonds carry a 2.43% interest rate with a final maturity on November 5, 2036.

Annual debt service requirements to amortize this debt, as of December 31, 2022 follow:

	Series 2021						
Year	Principal	Interest	Total				
2023	1,150,000	459,513	1,609,513				
2024	1,180,000	431,568	1,611,568				
2025	1,205,000	402,894	1,607,894				
2026	1,235,000	373,613	1,608,613				
2027	1,265,000	343,602	1,608,602				
2028-2036	12,875,000	1,612,092	14,487,092				
Total	\$ 18,910,000	\$ 3,623,282	\$ 22,533,282				

Note 3 - Detailed Notes on All Funds (Continued)

Changes in Long-term Debt - Changes in the City's long-term obligations consisted of the following for the year ended December 31, 2022:

Governmental Activities	Outstanding 1/1/2022	Additions	Reductions	Outstanding 12/31/2022	Amounts Due in One Year
2013 Device Tax Revenue					
Bonds	7,630,000	-	505,000	7,125,000	525,000
2014A Device Tax Revenue					
Bonds	7,635,000	-	500,000	7,135,000	520,000
2016 Device Tax Revenue					
Refunding Bonds	-	-	-	-	-
2021 Lease Purchase	20,000,000		1 000 000	10.010.000	1 150 000
Proceeds	20,000,000		1,090,000	18,910,000	1,150,000
Total Bonds	35,265,000	-	2,095,000	33,170,000	2,195,000
Compensated Absences	736,078	968,651	875,725	829,004	142,932
Total Governmental Activities	\$ 36,001,078	\$ 968,651	\$ 2,970,725	\$ 33,999,004	\$ 2,337,932
<b>Business-Type Activities</b>					
Compensated Absences	79,276	86,905	120,384	45,797	7,896
Total Business-Type Activities	\$ 79,276	\$ 86,905	\$ 120,384	\$ 45,797	\$ 7,896

All bond obligations of the City's governmental activities will be financed through future debt service fund's expendable available financial sources as they become due. All capital lease obligations of the City's governmental activities will be financed through future general fund's expendable available financial sources as they become due. Principal and interest payments related to the City's water enterprise fund are financed from income derived from the operation of the water system. The compensated absences liability will be paid from the fund in which the employees' salaries are paid, generally the general fund and the water fund.

## Note 3 - Detailed Notes on All Funds (Continued)

## 3-G. Net Investment in Capital Assets

The "net investment in capital assets" amounts reported on the government-wide statement of net position as of December 31, 2022 are as follows:

Net investment in capital assets:	Governmental Activities	Business - Type Activities
Cost of capital assets	\$ 168,575,612	\$ 55,046,704
Less accumulated depreciation	52,705,906	22,697,118
Book value	115,869,706	32,349,586
Less capital related debt (net of premiums, (discounts) and (refunding amounts))	(33,170,000)	-
Less capital asset related accounts payable and retainage payable	(649,489)	(55,355)
Add unspent debt proceeds	11,735,958	
Net investment in capital assets	\$ 93,786,175	\$ 32,294,231

## 3-H. Fund Equity

Fund Balances - Fund Balance are classified as follows:

• Nonspendable - The following fund balances are nonspendable because they are not in a spendable form:

## General Fund:

Inventory	<u>\$ 126,251</u>
Prepaid Items	<u>\$ 548,979</u>

• Restricted - The following fund balances are legally restricted to specific purposes:

## General Fund:

Emergency purposes \$ 1,021,	000
------------------------------	-----

## Major Special Revenue Funds:

## Preservation and Restoration Fund:

Repayment of debt principal and interest \$1,366,715

Major Capital Projects Funds:

Impact Fees Fund:

Parking, Fire and Police purposes \$10,759

• Assigned - The following fund balances are assigned by management for specific purposes:

Major Capital Projects Funds:

Capital Projects Fund:

Capital purposes \$5,525,732

## Note 4 - Other Notes

## 4-A. Risk Management

The City is a member of the Colorado Intergovernmental Risk Sharing Agency (CIRSA), a separate and independent governmental and legal entity, which was established pursuant to an intergovernmental agreement authorized by Colorado state statutes. The purposes of CIRSA are to provide property and casualty and workers' compensation insurance coverage and risk management services to its municipal members at a reasonable cost.

Members can participate actively in policy-making through the Board of Directors, which are nominated and elected by members; involvement on a number of board committees; and participation at annual general membership meetings. Operations are funded by individual membership contributions.

It is the intent of the members of CIRSA to create an entity in perpetuity which will administer and use funds contributed by the members to defend and indemnify, in accordance with the by-laws, any member of CIRSA against stated liability or loss, to the limit of the financial resources of CIRSA. Also, it is the intent of the members to have CIRSA provide continuing stability and availability of needed coverage at reasonable costs. All income and assets of CIRSA shall be dedicated to the exclusive benefit of its members. The by-laws shall constitute the substance of the intergovernmental contract among the members. The amount of settlements has not exceeded insurance coverage for any of the three previous years.

The City carries commercial insurance coverage for the other risks of loss including workers compensation and employee health and accident insurance. Settled claims have not exceeded this commercial coverage in any of the past three years.

## *Note 4 – Other Notes (Continued)*

## 4-B. Contingent Liabilities

The City has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies or their designee. These audits could result in a request for reimbursement to the grantor agency for costs disallowed under terms of the grant. Based on prior experience, the City believes such disallowances, if any, will be minimal.

The City is a defendant in various lawsuits at December 31, 2022. In the opinion of City management, the outcome of these contingencies will not have a material effect on the financial position of the City.

## 4-C. Pensions

The City sponsors two pension plans presented below.

**Defined Contribution Plan** - The employees of the City (except for paid firefighters) participate in ICMA Retirement Corporation Prototype Money Purchase Plan, which is a defined contribution plan, which was established by the City and is maintained and administered by ICMA Retirement Corporation. At December 31, 2022, there were 73 plan members. In a defined contribution plan, benefits depend solely on amounts contributed to the plan plus investment earnings. Employees become plan members upon the start of employment. Under this plan, up to 6.00% of the plan members' compensation is withheld and remitted to the Plan Administrator along with the matching payment of 6.00% from the City. The City's contributions plus earnings become fully vested after five years with partial vesting beginning after one year. City contributions for plan members who leave employment before they are fully vested are used to reduce the City's current period contribution requirement. There is no liability for benefits under the plan beyond the City's matching payments. Plan provisions and contribution requirements are established and may be amended by the City's Board of Aldermen.

Contributions actually made by plan members for the years ended December 31, 2022, 2021, and 2020 were \$357,561, \$360,887, and \$340,520 and the City's contributions were \$379,561, \$383,517, and \$363,395 respectively.

## 4-D. FPPA Statewide Defined Benefit Pension Plan

Pensions. The City contributes to the Statewide Defined Benefit Pension Plan ("SWDB Plan"), a cost-sharing multiple employer defined benefit pension plan, which is administered by the FPPA. The net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, pension expense, information about the fiduciary net position and additions to/deductions from the fiduciary net position of the SWDB Plan have been determined using the economic resources measurement focus and the accrual basis of accounting. Assets of the SWDB Plan are commingled for investment purposes in the Fire and Police Member's Benefit Fund.

General Information about the Pension Plan

**Plan description**. The SWDB Plan provides retirement benefits for members and beneficiaries according to plan provisions as enacted and governed by FPPA's Pension Fund Board of Trustees. Colorado Revised Statutes ("CRS"), as amended, establishes basic benefit provisions under the SWDB Plan. FPPA issues an annual, publicly-available financial report that includes the assets of the SWDB Plan. That report may be obtained on FPPA's website at <a href="http://www.fppaco.org">http://www.fppaco.org</a>.

**Benefits provided**. A member is eligible for a normal retirement pension once the member has completed twenty-five years of credited service and has attained the age of 55.

The annual normal retirement benefit is 2 percent of the average of the member's highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter. The benefit earned prior to January 1, 2007 for members of affiliated Social Security employers will be reduced by the amount of Social Security income payable to the member annually.

## *Note 4 – Other Notes (Continued)*

Effective January 1, 2007, members currently covered under Social Security will receive half the benefit when compared to the SWDB Plan. Benefits paid to retired members are evaluated and may be re-determined every October 1. The amount of any increase is based on the Board's discretion and can range from 0 to the higher of 3 percent or the Consumer Price Index.

A member is eligible for an early retirement at age 50 or after 30 years of service. The early retirement benefit equals the normal retirement benefit reduced on an actuarially equivalent basis. Upon termination, an employee may elect to have member contributions, along with 5 percent as interest, returned as a lump sum distribution. Alternatively, a member with a least five years of accredited service may leave contributions with the SWDP Plan and remain eligible for a retirement pension at age 55 equal to 2 percent of the member's average highest three years' base salary for each year of credited service up to ten years, plus 2.5 percent for each year of service thereafter.

**Contributions.** Contribution rates for the SWDB Plan are set by state statute. Employer contribution rates can only be amended by state statute. Member contribution rates can be amended by state statute or election of the membership.

Members of the SWDB Plan and their employers are contributing at the rate of 12.0 percent and 9.0 percent, respectively, of base salary for a total contribution rate of 21.0 percent in 2022. In 2014, the members elected to increase the member contribution rate to the SWDB Plan beginning in 2015. Member contribution rates will increase 0.5 percent annually through 2022 to a total of 12.0 percent of base salary. Employer contributions will increase 0.5 percent annually through 2030 to a total of 13.0 percent resulting in a combined contribution rate of 25.0 percent in 2030.

Contributions from members and employers of departments reentering the system are established by resolution and approve by the FPPA Board of Directors. The re-entry group has a combined contribution rate of 23.0 percent of base salary in 2022. It is a local decision as to whether the member or employer pays the additional 4 percent contribution. Per the 2014 member election, the re-entry group will also have their required member contribution rate increase 0.5 percent annually beginning in 2015 through 2022 for a total combined member and employer contribution rate of 24 percent in 2022.

The contribution rate for members and employers of affiliated social security employers is 6.00 and 4.50 percent, respectively, of base salary for a total contribution rate of 10.50 percent in 2022. Per the 2014 member election, members of the affiliate social security group will have their required contribution rate increase 0.25 percent annually beginning in 2015 through 2022 to a total of 6 percent of base salary. Employer contributions will also increase by 0.25 percent annually through 2030 to a total of 6.50 percent resulting in a combined contribution rate of 12.50 percent in 2030.

# Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions:

At December 31, 2022, the City reported an asset in the amount of \$1,150,761 for its proportionate share of the net pension asset. The net pension asset was measured as of December 31, 2021, and the total pension asset used to calculate the net pension asset was determined by an actuarial valuation as of January 1, 2022. Standard update procedures were used to roll forward the total pension liability to December 31, 2022. The City's proportion of the net pension asset was based on the City's contributions to the SWDB Plan for the calendar year 2021 relative to the total contributions of participating employers to the SWDB Plan.

At December 31, 2021, the City's proportion was 0.21234%, which was a decrease of 0.01065% from its proportion measured as of December 31, 2020.

For the year ended December 31, 2022 the City recognized pension expense of \$145,300. At December 31, 2021, the City reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

## *Note 4 – Other Notes (Continued)*

	Deferred Outflows of	Deferred Inflows of
	<u>Resources</u>	Resources
Difference between expected and actual		
experience	\$ 329,524	\$ 26,839
Net difference between projected and actual		
earnings on pension plan investments	N/A	\$ 770,154
Changes in proportion and differences between		
contributions recognized and proportionate share		
of contributions	\$ 45,153	(\$ 10,033)
Change in assumption and other inputs	\$ 164,107	N/A
Contributions subsequent to the measurement	+	
date	\$ 176,294	N/A
Total	\$ 715,078	\$ 786,960

\$176,294 reported as deferred outflows of resources related to contributions made subsequent to the measurement date but before the end of the City's reporting period, will be recognized as a reduction of the net pension liability in the year December 31, 2022. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended December 31	
2023	\$ 99,508
2024	\$ 179,171
2025	\$ 95,809
2026	\$ 19,789
2027	\$ 77,052
Thereafter	\$ 69,044

Actuarial assumptions. The actuarial valuations for the SWBP were used to determine the total pension liability and actuarially determined contributions for the fiscal year ending December 31, 2021. The valuations used the following actuarial assumptions and other inputs:

## **Total Pension Liability:**

Actuarial Valuation Date
Actuarial Method
Amortization Method
Amortization Period
Long-term investment Rate of Return\*
Projected salary increases\*
Cost of Living Adjustments (COLA)
\*Includes Inflation at 2.50%

January 1, 2022
Entry Age Normal

N/A
7.00 percent
4.25 – 11.25 percent
0.00 percent

## *Note 4 – Other Notes (Continued)*

## Actuarially Determined Contributions:

Actuarial Valuation Date
Actuarial Method
Amortization Method
Amortization Period
Long-term investment Rate of Return\*
Projected salary increases\*
Cost of Living Adjustments (COLA)
\*Includes Inflation at 2.50%

January 1, 2021 Entry Age Normal Level % of Payroll, Open 30 Years 7.00 percent 4.25 – 11.25 percent 0.00 percent

For determining the total pension liability and actuarially determined contributions, the post-retirement mortality tables for non-disabled retirees uses the 2006 central rates from the RP-2014 Annuitant Mortality Tables projected to 2018 using the MP-2017 projection scales, and the projected prospectively using the ultimate rates of the scale for all years. The pre-retirement off-duty mortality tables are adjusted to 50% of the RP-2014 mortality tables for active employees. The on-duty mortality rate is 0.00015.

At least every five years the FPPA's Board of Directors, in accordance with best practices, reviews its economic and demographic actuarial assumptions. At its July 2018 meeting, the Board of Directors reviewed and approved recommended changes to the actuarial assumptions. The recommendations were made by the FPPA's actuaries, Gabriel, Roeder, Smith & Co., based upon their analysis of past experience and expectations of the future. The assumption changes were effective for actuarial valuations beginning January 1, 2020. The actuarial assumptions impact actuarial factors for benefit purposes such as purchases of service credit and other benefits where actuarial factors are used.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighing the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (assumed at 2.50 percent). Best estimates of arithmetic real rates of return for each major asset class included in the Fund's target asset allocation as of December 31, 2021 are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return		
Global Equity	38.0%	7.00%		
Equity Long/Short	8.0%	6.00%		
Private Markets	25.0%	9.20%		
Fixed Income	15.0%	5.20%		
Absolute Return	8.0%	5.50%		
Managed Futures	4.0%	5.00%		
Cash	2.0%	2.52%		
Total	100.0%			

## *Note 4 – Other Notes (Continued)*

The discount rate used to measure the total pension liability was 7.00 percent. The projection of cash flows used to determine the discount rate assumed that contributions from participating employers will be made based on the actuarially determined rates based on the Board's funding policy, which establishes the contractually required rates under Colorado statutes. Based on those assumptions, the SWDB Plan fiduciary net position was projected to be available to make all the projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was

applied to all periods of projected benefit payment) to determine the total pension liability.

Discount rate. Projected benefit payments are required to be discounted to their actuarial present values using a Single Discount Rate that reflects (1) a long-term expected rate of return on pension plan investments (to the extent that the plan's fiduciary net position is projected to be sufficient to pay benefits) and (2) tax-exempt municipal bond rate, based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date (to the extent that the plan's projected fiduciary net position is not sufficient to pay benefits).

For the purpose of this valuation, the expected rate of return on pension plan investments is 7.00%; the municipal bond rate is 2.75% (based on the weekly rate closest to but not later than the measurement date of the "state & local bonds" rate from Federal Reserve statistical release (H.15)); and the resulting Single Discount Rate is 7.00%.

Sensitivity of the City's proportionate share of the net pension liability to changes in the discount rate. Regarding the sensitivity of the plan's net pension liability/(asset), calculated using a Single Discount Rate of 7.00%, as well as what the plan's net pension liability/(asset) would be if it were calculated using a Single Discount Rate that is one percent lower or one percent higher:

	1% Decrease (6.00%)	Current Discount Rate (7.00%)	1% Increase (8.00%)
Proportionate share of the net pension liability (asset)	(\$ 158,697)	(\$ 1,150,761)	(\$ 1,972,630)

*Pension plan fiduciary net position.* Detailed information about the SWDB Plan's fiduciary net position is available in FPPA's comprehensive annual financial report which can be obtained at <a href="http://www.fppaco.org">http://www.fppaco.org</a>.

## 4-E. Subsequent Events

As a result of the coronavirus pandemic (COVID-19), economic uncertainties may have economic implications on the financial position, results of operations and cash flows of the City. The duration of these uncertainties and the ultimate financial effects cannot be estimated at this time.

## City of Black Hawk, Colorado Notes to the Required Supplementary Information For the Year Ended December 31, 2022

## Note 1 – Budgetary Basis of Accounting

The general fund adopts an annual budget on a basis consistent with generally accepted accounting principles (GAAP) except that the inception of capital leases and the related capital outlay are not budgeted. Also, debt service expenditures related to capital leases are budgeted within the public works function budget, rather than separately as debt service expenditures.

The preservation and restoration, the transportation authority and the business improvement district funds adopt annual budget on a basis consistent with generally accepted accounting principles.

## City of Black Hawk, Colorado Introduction to Statistical Section

(Unaudited)

This part of the City of Black Hawk's comprehensive annual financial report presents detailed information as a context for understanding this year's financial statements, note disclosures, and supplementary information. This information has not been audited by the independent auditor. In 2007, the Black Hawk Business Improvement District, a component unit, was reclassified from discretely presented to blended pursuant to generally accepted accounting principles.

Contents	Exhibit
Financial Trends  These tables contain trend information that may assist the reader in assessing the City's current financial performance by placing it in a historical perspective. Since a significant funding source for the City is state aid relating to the City's share of state gaming taxes, a trend table presenting this revenue has been added.	I - XII
Revenue Capacity  These tables contain information that may assist the reader in assessing the viability of the City's two most significant "own-source" revenue sources, gaming device taxes and sales taxes. Property taxes are not a major revenue for the City , therefore, the tables relating to the City's property taxes are not presented.	XIII - XVI
Debt Capacity  These tables present information that may assist the reader in analyzing the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future.	XVII - XX
Demographic and Economic Information  These tables offer economic and demographic indicators that are commonly used for financial analysis and that can inform one's understanding the City's present and ongoing financial status. Since the gaming industry is competitive between three authorized gaming cities within the State of Colorado, selected comparison tables are presented for gaming information.	XXI - XXVII
Operating Information	XXVIII - XXX

### Data Source:

activities it performs.

Unless otherwise noted, the information in these tables is derived from the annual financial reports for the relevant years included.

These tables contain service and infrastructure indicators that can inform one's understanding how the information in the City's financial statements relates to the services the City provides and the

### Notes

### Data Source:

<sup>&</sup>lt;sup>1</sup> Accounting standards require that net position be reported in three components in the financial statements: net investment in capital assets; restricted; and unrestricted. Net position is considered restricted only when (1) an external party, such as the State of Colorado or the federal government, places a restriction on how the resources may be used, or (2) enabling legislation which is enacted by the City. There are no restrictions currently reported as a result of enabling legislation.

<sup>&</sup>lt;sup>2</sup> Includes the Black Hawk Business Improvement District.

### Notes:

### Data Source:

<sup>&</sup>lt;sup>1</sup> The State Constitutional amendment that authorized limited gaming in three Colorado cities requires limited gaming establishments to pay up to 40% of their adjusted gross profits (the total amount of all wagers made by players less all payments to players) to the State of Colorado. A portion of these taxes is returned to the gaming cities.

<sup>&</sup>lt;sup>2</sup> The State of Colorado must distribute 10% of their state gaming taxes to the three gaming cities in Colorado, in proportion to the gaming revenues generated in each respective city.

<sup>&</sup>lt;sup>3</sup> 20% of the state gaming taxes distributed to the State of Colorado's state historical fund to be used for restoration and preservation of the three gaming cities in Colorado in proportion to the gaming revenues generated in the respective cities.

### Notes:

<sup>&</sup>lt;sup>3</sup> Because of the City's small population, the debt per capita is extremely high. However, because of gaming, the City's daily population is in the range of 10,000 - 15,000.

<sup>&</sup>lt;sup>4</sup> Percentage of personal income or percentage of actual taxable value of property is not useful, since the City receives an immaterial amount of property taxes. A better measure is the debt per gaming device within the City.

<sup>&</sup>lt;sup>6</sup> Includes debt related to the Black Hawk Business Improvement District.

<sup>&</sup>lt;sup>1</sup> Applicable years' annual financial report.

<sup>&</sup>lt;sup>2</sup> Are estimated counts by City management and the Colorado Department of Local Affairs, Division of Local Government.

<sup>&</sup>lt;sup>5</sup> Number of gaming devices. Colorado Department of Revenue, Gaming Division.

# Ratios of General Bonded Debt Outstanding Last Ten Calendar Years

### Direct and Overlapping Governmental Activities Debt December 31, 2022

Governmental Unit	Debt Outstanding	Estimated Percentage Applicable <sup>3</sup>	Estimated Share of Overlapping Debt
City Direct Debt:			
City: Device tax revenue bonds	\$ 14,260,000		
General obligation refunding bonds  Lease purchase financing	18,910,000		
Black Hawk Business Improvement District: <sup>1</sup> General obligation refunding bonds	-		
Total direct debt	\$ 33,170,000	100.00%	\$ 33,170,000
Overlapping Debt <sup>2, 3, 5, 6</sup>			
General Obligation Bonds: 4			
Miners Mesa Commercial Metropolitan District General obligation bonds Silver Dollar Metropolitan District	6,291,000	100.00%	6,291,000
General obligation bonds	12,140,000	100.00%	12,140,000
Tot			18,431,000
<b>Total Direct and Overlapping Debt</b>			\$ 51,601,000

### Notes:

<sup>&</sup>lt;sup>1</sup> The Black Hawk Business Improvement District is a blended component unit of the City.

<sup>&</sup>lt;sup>2</sup> Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the City.

<sup>&</sup>lt;sup>3</sup> For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using assessed property values. Applicable percentages were estimated by determining the portion of another government unit's assessed value that is within the City's boundaries and dividing it by each unit's total assessed value.

<sup>&</sup>lt;sup>4</sup> Debt as of most current data available.

<sup>&</sup>lt;sup>5</sup> Although overlapping the City's boundaries, Black Hawk-Central City Sanitation District, Gilpin County RE-1 School District and Gilpin County do not have any outstanding governmental activities debt.

<sup>&</sup>lt;sup>6</sup> Each specific government.
